

Recognition of JCNM Reviewers 2017

The hallmark of a research journal is that manuscripts are peer reviewed. This peer review process helps to ensure that manuscripts are relevant, timely, and of high quality and that the results of the research are applicable to practitioners in child nutrition programs. This critical review process is very time consuming, and we would like to extend sincere appreciation to the professionals who reviewed manuscripts for *The Journal of Child Nutrition & Management* in the past year. We invite individuals who are interested in serving as a reviewer to contact the *Journal* editor.

Sincere appreciation is extended to the following reviewers:
