

Reviewer Recognition

The hallmark of a research journal is that manuscripts are peer reviewed. This peer review process helps to ensure that manuscripts are methodologically sound and that the results of the research are important and applicable to practitioners in child nutrition programs. This critical peer review process is very time consuming, thus, the editor would like to extend sincere appreciation to the professionals who reviewed manuscripts for the 2002 issues of *The Journal of Child Nutrition & Management*. ASFSA invites individuals who are interested in serving as a reviewer to contact the editor of the *Journal* at jsneed@iastate.edu.
