

Recognition of Reviewers

The hallmark of a research journal is that manuscripts are peer reviewed. This peer review helps to ensure that manuscripts are methodologically sound and that results of research are important and applicable to practitioners in Child Nutrition Programs. Peer review is a time-consuming process; thus, we would like to extend our sincere appreciation to the professionals who reviewed manuscripts for the 2006 issues of *The Journal of Child Nutrition & Management*. We invite individuals who are interested in serving as a reviewer to contact the journal editor.
