

RECOGNITION OF JCNM REVIEWERS

INTRODUCTION

The hallmark of a research journal is that submissions undergo a peer-review process. This peer review process helps ensure that manuscripts are of high quality, and that the results of the research are useful and relevant to practitioners and others engaged with child nutrition programs. This critical review process is very time consuming. A sincere “thank you” is extended to the professionals listed below who reviewed manuscripts for *The Journal of Child Nutrition & Management* in the past year.

These 44 reviewers are to be commended for their contributions to the Journal of Child Nutrition and Management. Reviewers who provided feedback on articles submitted to the Journal as part of the 2018 issues are listed in alphabetical order. There are several who provided multiple reviews; this is designated with number in parentheses. Thank you to these Reviewers! Those interested in joining the Review Team are invited to contact the Journal Editor.
