

## PEER REVIEWERS FOR 2020

### ACKNOWLEDGEMENT

The contributions of the individuals listed below are key to producing a peer-reviewed publication. These individuals graciously responded to requests from me to review manuscripts submitted to the Journal during the 2020 year. The understanding by reviewers of research methodology and operational aspects of child nutrition programs is essential to ensuring articles published in The Journal of Child Nutrition and Management are credible resources of research or evidence to support informed decision-making useful in all aspects of child nutrition. Please join me in thanking these individuals!
