POLICY UPDATE

10.07.2015 Information Collection for USDA Foods Study

This new [Federal Register Notice](#) announces comment collection on a USDA study of SFA costs related to the USDA Foods purchase and procurement process. The proposed study will examine the variety of factors that determine the cost and value of USDA Foods to local school and school district food programs. The objectives of the study are to identify distribution models used by 49 states and the District of Columbia, identify 4-10 procurement and distribution models representing SY2015-16, and develop complete cost estimates for a group of USDA Foods, full processed products made from USDA Foods, and comparable commercial products. Respondents to the study will include State officials with responsibility for USDA Food provision and directors of School Food Authorities.

Comments are invited on whether the proposed information collection is necessary and efficient and in order to provide ways to enhance quality and minimize burden. Comments are due by 12/07/2015 and may be submitted to Dennis Ranalli at dennis.ranalli@fns.usda.gov or on the online portal at <http://www.regulations.gov>.

These State agencies would continue to operate under the same terms and conditions as in SY 2013-2014 or SY 2014-2015, and may continue using the process outlined in the Administrative Review Manual until such time as a final administrative review regulation is promulgated or as otherwise determined by Food and Nutrition Service (FNS). State agencies that did not request a waiver in SY 2013-2014 or SY 2014- 2015, and wish to do so in SY 2015-2016, should follow the procedures in this [memo](#).
