

SCHOOL BREAKFAST HEROES RISE

They took action, took steps, took chances and took hold of a fantastic opportunity to showcase the power of delicious and nutritious morning meals. School breakfast heroes—from the tall to the small—gathered in cafeterias and corridors to celebrate National School Breakfast Week 2022!

School nutrition teams embraced the “Take Off With School Breakfast” theme, adapting it to focus on heroes, travel, space flight and—most important—fun! At press time, *School Nutrition* was still receiving photos and reports from school cafeterias across the country, sharing the beaming faces of young customers and the team members who love to serve them! They offered new menu items, raffled off prizes for participation, set-up “vacation” stations, encouraged dress up, welcomed guests, made crepes, held presentations and let everyone’s imagination soar! On this page and the next, you’ll discover a sampling of the images that made us take heart!

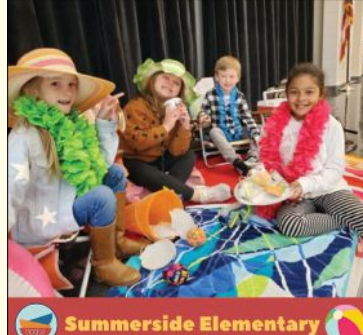

Don't Miss !

A big, BIG Things We Love heart goes to the talented video production students at Manchester High School, Chesterfield County (Va.) Public Schools, who created an amazing graphic novel-style video to celebrate #NSBW22! View it here:
